Importing Genetics Timeline

1

Buy Genetics

Purchase genetics directly from the producer of your choice to find the genetics that best fit your program.

2

Import Permitting

RSG works with American Genetics as a trusted shipping and permitting partner for the import and export of livestock genetics. Their team serves as a valuable resource throughout the process, helping navigate permitting requirements and coordinate the shipment of genetics between countries.

3

United States Shipment

text about American Genetics. USDA approval is required for shipment into the United States, RSG will assist with those logistics

4

Delivery to RSG or Hub

Genetics will be delivered to RSG or an airport shipping hub.

5

(If needed) Breeding Procedures

RSG can provide breeding procedures upon client request to support the use of imported or exported genetics within their program.
